### **DETAILED ACTION**

The amendment and arguments filed 9/28/05 were persuasive to overcome the prior art rejection of 6/24/05.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 104 is rejected under 35 U.S.C. 102(b) as being anticipated by USP 5,635,358 (Wilding et al.).

Wilding et al. discloses a device (10) which is equivalent to the MEMS device comprising a substrate (14) with at least one well (22) having an enucleation penetration member (24) and an enucleation pit (16 or 16b).

#### ***Allowable Subject Matter***

Claims 105-111 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 112,114-138 are allowed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
